

RESERVE COCKTAIL LIST

APHRODISIAC  
APOTHEKE

## What is a reserve cocktail?

At Apotheke, we craft artisanal cocktails on a nightly basis, prepared with fresh fruits, botanicals and house-made elixirs. But in the cocktail culture, there is always a way to turn things up a notch.

Similar to a reserve wine list, Apotheke introduces New York's first Reserve Cocktail List. A set of 10 meticulously crafted libations, our reserve cocktails are made with luxury, high-end spirits, rare and imported fruits and herbs, and special kitchen techniques. The finished product is poured into a carefully selected crystal glass, specialized for each cocktail.

Each sip of one of our reserve cocktails, is a privileged and cherished experience.

Enclosed is a tour of our reserve cocktails...

**DENATURED ALCOHOL-Poison**  
ANTIDOTE.—Empty stomach with large quantity lukewarm water, then drink copiously of sweet milk or coffee. In case of coma, Complete Denatured Alcohol is a violent poison. It cannot be applied externally to human or animal tissue without seriously injuring the same. It cannot be taken internally without inducing blindness and general physical decay, ultimately resulting in death.
