

# CHERRYWOOD

KITCHEN

300 SPRING STREET

At Cherrywood Kitchen we are committed to sourcing great ingredients. We have developed close relationships with the farmers, purveyors and craftsmen that have contributed to our menu.

Our philosophy is simple...we love great tasting food.

We hope you share our passion for great food. We source locally and seasonal as much as possible, we bake our own bread, and smoke many of our menu items ourselves with cherrywood, of course.

**And just as a heads up,  
we cook with pure peanut oil.**
