

Dying to know how Walter White’s life of crime will end? Our *Breaking Bad* fortune teller will reveal all! Just like you did in grade school, first spell out the outermost word of your choosing, then spell out the element inside. Lift up the flap you land on to reveal exactly what will happen in the finale, so you can tell all of your friends that you knew first. Science *and* magic!

<div>MOH</div>	<div><math>C_{10}H_{15}N</math> (Meth)</div>	<div>Te (Tellurium)</div>	<div>END?</div>
<div>O (Oxygen)</div>	<div>Walt kills Jesse and Hank. Skyler and Walt renew vows.</div>	<div>Jesse kills Walt. Skyler shrugs.</div>	<div>Br (Bromine)</div>
<div>The ghosts of Gus and Jane return, scare everyone to death.</div>		<div>Hank fires bullet, but Walt dies of cancer a millisecond before he's hit.</div>	
<div>Be (Beryllium)</div>	<div>Walt Jr. kills everyone, has celebratory eggs with Walt.</div>	<div>Walt kills Skyler, Hank, Marie, and Jesse. Holly kills Walt.</div>	<div>Na (Sodium)</div>
<div>Everyone kills everyone. Ted tiptoes in and takes their wallets.</div>		<div>Walt kills Jesse with killer hug.</div>	<div>BREAKING BAD</div>
