Our Promise of Quality

좋은 품질에 약속

At COTE, we carefully select and source beef that is USDA Prime grade or above, and is aged in our in-house dry-aging room for a minimum of seven days, allowing it to develop its optimal flavor and tenderness.

Our pork is carefully sourced from local heritage pork farms that raise animals with dignity and care. At COTE, each cut of meat is pre-sliced and cooked individually, increasing the **Maillard Reaction**: the grilled, caramelized surface area that makes the food more delicious!

If you are not satisfied with our meat for any reason, please let us know so we can find a way to satisfy you.

***The Maillard Reaction** (*\may-YAR*) is a chemical reaction between amino acids and reducing sugars that gives browned food its distinctive flavor. Seared steaks, pan-fried dumplings, cookies and other kinds of biscuits, breads, toasted marshmallows, and many other foods undergo this reaction. It is named after French chemist Louis-Camille Maillard, who first described it in 1912 while attempting to reproduce biological protein synthesis.
